

# TOKYO INDIE GAMES SUMMIT トキョーインディーゲームズミット 2024

## What's

### TOKYO INDIE GAMES SUMMIT?

TOKYO INDIE GAMES SUMMIT is a new indie games event that started in 2023 in Kichijoji, Musashino City, aiming to be "a place where various talents of indie game creators can gather together and be inspired to pursue their goals." We have decided to hold the second event in order to maintain the enthusiasm of last year's event and to create a place where a wider range of exchanges can take place. We look forward to seeing you again next year in Kichijoji, a place where various cultures gather!
